

# Westdale Used Car Superstore

Location: 33<sup>rd</sup> Ave & Wiley Blvd.  
Cedar Rapids, Iowa

Completed: Fall 2006

Size: 6,800 s.f.

Construction: Cast stone, EIFS, and metal panel veneer with steel framing

Developer: McGrath Automotive Group  
Bruce McGrath  
Pat McGrath  
Mike McGrath

For this project, a long standing client, the McGrath family, wanted to create a new facility for used car sales for the West side of Cedar Rapids and surrounding communities.

Being a used car facility allowed for some flexibility in terms of design standards, as no specific car manufacturer's national image needed to be incorporated into the design.

The design ultimately utilized a system of cast stone, EIFS, rock faced concrete block, aluminum storefront windows for the façade of the sales area, and warm, vibrant colors on the interior.

For the service bay portions, horizontal metal siding was utilized to give the building a more unique look than the typical metal building with vertical siding.
