One of our major renovation projects for the Taco Bell franchise is the Taco Bell located along 1<sup>st</sup> Avenue, which is the major thoroughfare of Cedar Rapids, Iowa.

The challenge for this project was to bring an older restaurant up to the latest corporate standards. This required the redesign or removal of several structural items, including the drive-thru, the clay tile roof, and the front entry.

Additional changes included several windows, landscaping, façade detailing, and a brighter color palette.
