Completed: Summer 2002

Size: 7,100 s.f.

Construction: Masonry veneer &
sculptural EIFS with
wood framing

Developer: Longfellow Square, LLC.
Jon Dusek
Ace Aoessy

With the opening of the Longfellow Square Shopping Center, the Longfellow Square commercial and retail development received a key new neighbor.

The development, near Interstate 380 at the corner of Boyson and Center Point Roads, has easy access to the interstate, and is within walking distance of the Cedar Valley Nature Trail. Already containing several office buildings, a credit union, and a Culvers restaurant, the addition of leasable retail space made the development a more self-contained walkable neighborhood.

Since their opening, the facility has added a dental office, a coffee shop, and restaurants to the mix, providing a variety of services within walking distance for local office workers.
